About Me

I am passionate about new technologies and solving complex problems. With a strong foundation in programming languages such as Java and Python, I have built several projects showing my skills. My experience has made me proficient in analyzing and formatting data and developing websites. Through coursework and personal projects, I have improved my skills in areas like web development and database management.

Experience

Junior Data Engineer | 2024
Rev Albania

From April 2024 to the present day, I have worked as a junior data engineer at Rev Albania. My main responsibilities were analyzing, formatting data and optimizing queries. I used technologies like PostgreSQL, Amazon QuickSight, and Python Pandas to extract insights from our data and visualize it in dashboards.

Front-end Developer | 2023
Intermedia

I worked as a Front-End Developer at Intermedia from August 2023 until October 2023. I designed and coded responsive websites using HTML, CSS, JavaScript, and Bootstrap 5, and I also optimized these websites for SEO.

Data entry specialist | 2023
Rev Albania

I worked as a data entry specialist at Rev from March of 2023 until March 2024. I had to format data and upload it to Salesforce and also check if the clients where eligible for an application.

Education

Canadian Institute of Technology
CIT | 2021 – 2024

Bachelor's degree in Software Engineering with a strong focus on Java programming and SQL databases.

Front-end Developer Internship
Intermedia | 2023 – 2023

In this Internship I learned Bootstrap 5 and how to use it to create responsive websites, as well as improve my SEO, HTML, CSS, and JavaScript skills.

Projects

AI-based Survailence System

Developed an AI-based survival system for animal detection. To achieve this a YOLOv9 Model trained on a custom dataset and was integrated in a Flask web application.

30+ Responsive Websites

Developed and designed several responsive Websites for different businesses such as hotels, villas, restaurants, and car rentals with some hosted on Contabo VPS using Ubuntu.
